in 2016-17

Professional Summary:

I am an energetic computer science specialist with a strong foundation of programming logic and knowledge of multiple programming languages. I want collaboration, communication, passion, and creativity to define my work and interactions with coworkers, customers, and employers.

Goals:

- To strengthen my knowledge of programming languages.
- To use computer science to improve peoples' lives.
- To make my mark on the world using the knowledge and skills

I have acquired as well as the knowledge and skills I will learn over time.

Strengths:

- Fast learner: able to pick up new skills and concepts and apply them quickly.
- Great communicator: can seamlessly fit into teams as a member or leader on small- or large-scale projects.
- Experienced programmer: have worked on projects using multiple different programs and programming languages.

Work History:

Home City Ice – Delivery Truck Driver

Massillon, OH • 06/2017 – 09/2020

- Drove a class B license vehicle (box truck) to transport ice and other materials throughout Stark, Summit, and Wayne counties of Ohio.
- Meticulously analyzed customer orders to identify and correct any errors as well as ensure customer satisfaction.
- Worked up to 16 hours a day to ensure daily work was completed.
- Analyzed daily routes in order to optimize delivery times and efficiency.
- Dressed appropriately and presentably to uphold company guidelines and etiquette, as well as present the company.
- Worked with customers to determine the best possible methods to deliver their product in a safe, timely, and cost-effective manner.
- Resolved customer issues alone when possible and with help from management when required.
- Learned individual problem solving skills due to working alone most days.
